

JAKARTA 2008

Background:

Community service is not something new for community of believers (church, fellowship, Christian organization, or a group of people who has a burden for certain ministry), because this thing can't be separated from Christian's faith. Schools, orphanages, and many non-government organizations that serve in many aspects of love ministries are the real proofs of a heart moved to love God and other people. Prayer movement which is growing in Indonesia has also brought God's people to show their concrete love to the society.

Nowadays, however, through the **Society Transformation Movement**, a new paradigm has appeared and grew, that **the good news** which is told to human beings, is not only a social activity, but also something that will bring **changes (transformation)** to the life of ministered society.

This thing has been a real phenomenon since half centuries ago. There are hundreds of countries which have experienced real changes or transformation, which can be proved with empirical findings and statistical data. For example: what happened in some countries in Africa, Asia, and Latin America. Transform World Movement keeps gathering, inventorying, and studying this phenomenon.

What is Jakarta 2008?

Jakarta 2008 is a partnership institution of many groups which have concern about the situation of society in Jakarta, and long for changes / transformation.

Jakarta 2008 doesn't intend to intervene or organize something which is currently present or is currently done by church / ministry organization. It intends to facilitate and act as a *servant catalyst* so that there is a connection in giving and receiving information and developing something which is currently done in order to do it optimally.

How to get involved?

Every body of organization (church/organization/individual) will organize and manage their projects. They will then need to determine how they can be connected by deciding who or which part they want to be connected with.

1. Based on location
 - Central Jakarta
 - West Jakarta
 - East Jakarta
 - North Jakarta
 - South Jakarta
