

December 2007

Dear Faithful Servant of the Lord,

God has called Brazil with its multicultural faces to play an important role for this exciting time in history. Brazil is known for its carnival and samba and as the biggest Catholic nation in the world. But what is not known is its heritage of Black Magic (brought by the Africans), idolatry (by the main church) and animism (by the Brazilian Native people). That is the base for corruption, sexual immorality, violence and poverty that we face today.

Since the first 'evangelical' missionaries came to Brazil over 150 years ago, a huge spiritual battle started in our society. The evangelical message was not well accepted by the Roman church and a persecution started to rise from there. But that persecution was only the motivation for the evangelical movement to grow in Brazil and Latina America.

The evangelical movement started to be noticed on the early 70's, when famous preachers from the US started mass evangelism. Since then, the traditional evangelical churches started to face a new paradigm: the 'Pentecostal' movement, bringing healing and revelation. The Pentecostal churches grew in a rapidly, overcoming in numbers the traditional churches in the 80's.

In the late 90's a new paradigm started in Brazil; the neo-Pentecostal movement came to bring a new taste of theology. This movement gave birth to many other movements like missionary movement; Cells movement - the G12, Worship Movement, City Transformation movement, Apostolic and Prophetic movement, and etc.

The result of those movements we can characterize by many spiritual blessings but also by many divisions and conflicts within the church.

Since the birth of 'Transform World Brazil' (Transforma Mundo Brasil) many evangelical leaders are coming together for reconciliation and healing. A new paradigm has started in Brazil and Latina America to bring transformation to our church and society. Recently according to a recognized nationwide magazine Brazil became as the biggest evangelic nation in the World.

Brazil is also known by the Amazon River and its streams of water that bring life to the rain forest. We believe that there is a much more powerful river that will bring transformation and life to our nation and Latina America. We want to invite you to come and connect the main river of transformation with our streams in Brazil for the ***Transform World Brazil 2008*** (12 - 15 November). This event will be held in Sao Paulo- Brazil.
