### “Being a Forming - Transforming Leader”

1. **Prayer domain synergy appears compelling.** Willy Tjen is involved with monthly prayer meetings. Alejandro Kim already has planned an annual prayer summit for the LA area. Cory and Shine feel led to fully develop our prayer focus. I am sure Bill Makari’s prayer groups will want to join. We all look forward to an awesome prayer calendar. If you wish to become directly involved in the development of this prayer ministry please contact Cory
2. John Fornof shared a strong message for the growth of **activity in the media industry.** If you have members of the groups you represent that wish to make an impact in the media world for Christ, contact John Fornof.
3. **California School Project:** Mark Hopson filled in Warren Willis. Wow. What a great video on the outreach at Carson High for Christ. Do you want to impact your local high school and change its culture and world view? Are you concerned about gang activities on the local campus? Do you believe that you cannot talk about Christ on the campus? Do you feel that the school principal would be against the project? Please contact Warren. The Lord has opened an amazing door to the high school campuses.
4. The arms of the Body of Christ reaching **out to the immediate neighborhood** surrounding the church. 16 churches are coming together in Whittier. 1 Church is doing the same thing in Glendale. The social and spiritual affect was clearly seen on the DVD that Coleen Marks brought from Whittier and the testimony of Chris Belluomini from Glendale. How do they do it? Could your church start right away? Write to Kathy Narramore of Chris and they will be please to tell you. My prayer is that Coleen will start a domain that focuses exclusively on “neighborhood outreach.”
5. Phil Hodges gave a great overview of the principle of **“Lead Like Jesus”** In all the items mentioned above servant leadership will be paramount. Building our home churches will require servant leadership. “Lead Like Jesus” is a model to cause that to happen.
6. **Vishal Mangalwadi** has prepared DVD’s and CD’s on the fading influence of the West and the truth about Transformation. Contact Vishal about these writings and more. He is here to serve us and build our knowledge base.
7. **Grace Ministries** was a great host: a nice venue to meet in, coffee and drinks during the day and a lovely box lunch at the end of the meeting. Thank you Shine and Grace Ministries for taking care of us.

The Lord is great. He has given us a blessing in 6 to 7 domains, according to how you count. He has allowed us to begin partnering with 7 ethnic groups in SoCal. We now have a foundation to build upon.

1. There are people who can help us reach out into various domains to be the blessings of Christ into the community.
2. There are members of ethnic groups who can radiate about places to serve and reflect the power of the living Lord in a desperate world.

**Recommended action:** Talk to others about the various outreach ministries available to help transform our community. Encourage the interested to contact the appropriate person.

**Our next meeting will be a phone meeting: July 15<sup>th</sup>, at 7PM.
