**ASIA PACIFIC TRANSFORMATION CONFERENCE (APTC)**  
**The City Tower, Jakarta, 10 – 13 October 2010**

**Theme** : "Arise and Build the Nation"  
**Sub Theme** : "Nation transformation through education, empowerment and national's moral & spiritual enhancement"

**INTRODUCTION**

APTC (Asia Pacific Transformation Conference) is a Christian leaders' conference for the transformation process in Asia Pacific regions. Transformation is a holistic change towards a better situation. The changes involved here include not only a moral or spiritual change, but also changes in the sector of economy, social and culture. Specifically, it will include changes in many important sectors (A-G): Arts & Media, Business, Church, Development of The Poor, Education, Family & Governance.

APTC is a part of global Transform World movement (TW), which was launched through TW Indonesia conference in 2005. Since 2005, this movement has spread to many countries in South East Asia, South Asia, Korea, USA, Latin America, Africa, etc. In Indonesia, in obedience to the call to become the salt and light of the world, a number of Christian's leaders and professionals have worked together to become catalysts in a forum called Transformation Connection Indonesia (TCI).

This year, the host of APTC is Indonesia, a country with many struggles and challenges. Four out of five provinces whose majority population is Christians have the most number of poor people. In education sector, the 2010 national examination results show that the provinces with lowest graduation rate are the provinces in East Indonesia, where majority of people living there are Christians. Many corruption, drug problems and AIDS are also found in a great number in these provinces.

In this globalization era, the problems in Indonesia could not be separated from international problems, especially for us in Asia Pacific regions. In order to be a part of the great challenges in Indonesia and Asia Pacific, we could not work alone. We need to gather, come to our almighty God and work together to create real changes.
